

RoHS Compliance Announcement

June 30, 2006

BiTMICRO Products RoHS Compliance

As part of its commitment to Reduction of Hazardous Substances (RoHS) Directive adopted by the European Union, BiTMICRO has gone through the process of auditing all parts and components being used in our products. We have identified a small number of components that, at this time, cannot be either certified as Lead-free/fully RoHS compliant or be replaced with RoHS compliant versions.

Due to this, our position announcing that we expect to have our products 100% compliant by June 2006 as posted in our website in good faith last 2004, is not yet the case.

In light of this development, we are already in the process of designing new 100% RoHS compliant products to replace our currently shipping products.

If necessary, BiTMICRO is ready to ship the following products at the indicated minimum compliance levels. Estimated timetable to fully compliant versions is also provided.

Product List and RoHS Compliance Levels:

Product	Status*	Target Compliance
3.5" E-Disk [®] ATA/IDE	99 %	Sept. 2007
3.5" E-Disk [®] SCSI Wide	95 %	Sept. 2007
3.5" E-Disk [®] Ultra320 SCSI	99 %	Sept. 2007
3.5" E-Disk [®] SCSI Narrow	97 %	Nov. 2007
3.5" E-Disk [®] Fibre Channel	98 %	Nov. 2007
2.5" E-Disk [®] ATA/IDE	98 %	July 2007
2.5" E-Disk [®] SCSI Narrow	97 %	Sept. 2007

** Status is defined as percentage of total quantity of BOM components that are lead-free or 100% RoHS compliant.*

BiTMICRO portable, plug-in, or system-level products are powered by the above device-level products, thus compliance of these products is also dependent on the above timetable.

BiTMICRO plans to continue shipment of our products to countries outside the European Union. In case any of your customers are unable to accept shipment arising from the non-compliance of our products, we request that you advise us immediately.

We sincerely regret any inconvenience that this may cause you or your customers. Please be assured that we are totally committed to full RoHS compliance and will work closely with all our suppliers and engineers to ensure that this is met at the soonest possible time.

Should you have any questions, please do not hesitate to contact your BiTMICRO Sales Representative at sales@bitmicro.com or at 510-743-3475.
