E-Disk[®] ATA Standard Firmware 2H08

CMKPCN000003-001
August 25, 2005

Overview

Effective September 1, 2005, all E-Disk[®] ATA products will be shipping with a new standard firmware version 2H08. This version replaces the current firmware version 2Q07. The following is a summary of changes and enhancements:

- Improved flash support and erase handling
- Enhanced securErase[®] to support industry-standard Sanitize methods
- Enhancement for flash process handling for capacities greater than 13GB

Affected Products:

3.5" E-Disk[®] ATA/IDE Models 3A5, 3A11, 3A16, 3A33, 3A66
2.5" E-Disk[®] ATA/IDE Models 2A5, 2A11, 2A16, 2A33, 2A66

Recommendation:

Upgrade to new firmware version provides enhanced product performance and is recommended for all E-Disk[®] ATA/IDE models.

For capacities greater than 13 GB, this upgrade is **highly recommended**.
